

Dear Louise, Siobhán and Noel,

Many thanks again for helping us with the organisation and running of the 25th International Conference on Computational Linguistics held in Dublin last August. The event was a huge success due in no small part to the efforts of you and your team.

The professionalism and ease with which you and your team dealt with all matters relating to the conference, our delegates and logistics throughout the event was truly impressive. Throughout the conference and in the weeks following we received many compliments on the friendly and service driven people involved, all of whom were going above and beyond expectation to ensure the delegate experience was ideal.

From an organiser's perspective working with you and the team put me very much at ease knowing that there was nothing for which I could not rely on your help. Your "can do" attitude and detail oriented work ethic was reassuring from the get go. This made organising the event much easier by allowing me and my colleagues to focus on other matters, comfortable in the knowledge that whatever solution we arrived at we could rely on you to help make a reality.

I will have no hesitation at all in giving you a call the next time I or my colleagues need to organise another conference or event. It was an absolute pleasure.

All the best,

John
